

ABOUT THE NATIONAL TRUST FOUNDATION

The National Trust Foundation has been established for the purpose of creating a significant fund to allow the Trust to carry out its charter well into the future. It is important for the organisation to create an operational environment that is sustainable and underwritten by money from many different sources. The Foundation will provide an attractive method for donors to assist in the work of the National Trust.

There are four donation levels all of which are fully tax deductible. The first level requires an annual donation. The next four levels have a three year duration. Donations are due and payable on 1st June in the year relevant to the chosen level. Prompt payment ensures you will receive invitation to functions throughout the year as well as updates on our activities and fundraising.
